

NYC Criminal Justice

Government Working with Partners to Invest in People

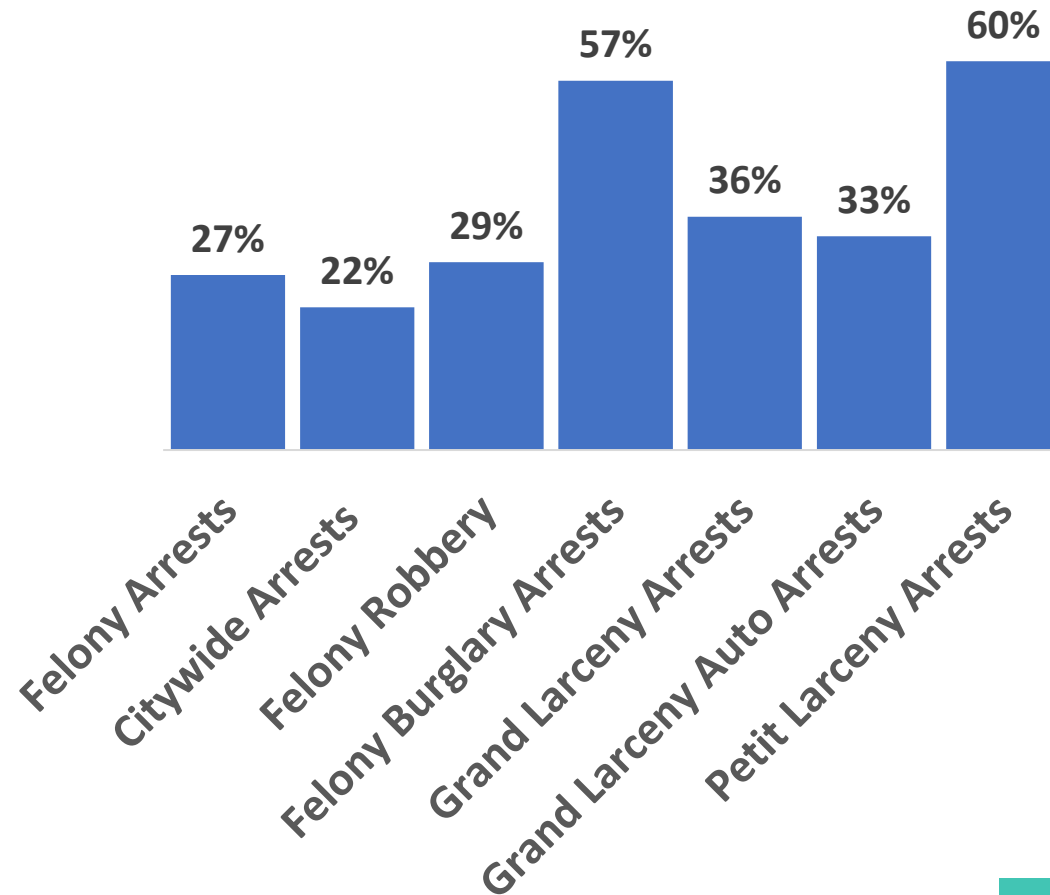

Out of 190,000 citywide arrests in 2022, ~9,000 people came into NYC courts with one of the following situations:

- **Felony rearrest with an already pending Felony case in court**
- **Multiple recent warrants (2+ in the last 5 years)**
- **Several pending cases (3+)**

Of this 8% of arrested people, ~2,000 went on to have a new violent felony arrest pretrial.

This group is a significant contributor to overall citywide arrests.

People with a Recent Persistent Pattern as a % of Total 2022 Citywide Arrests

Focusing on Prevention & Precision Intervention

In working towards a city where **every person** receives the **best available effective services** to prevent violence and crime, different programs are effective at different stages.
